

LUZA MAHARJAN

Manager & Digital Strategist | Full-Stack Web Developer | AI & Automation Builder

Lalitpur, Nepal • +977 9748265710 • maharjanluza380@gmail.com • luzazzm@gmail.com

GitHub: github.com/luzazzm-stack

PROFILE

Self-taught web developer, digital strategist, and automation builder based in Nepal. Currently managing end-to-end digital operations for Nepal trekking and pilgrimage brands — from technical SEO and content strategy to platform architecture (Next.js + Laravel). Experienced in building custom CMS solutions, AI-powered agents, programmatic video pipelines, and game development. Dyslexic learner who has built production systems across multiple domains through persistence, experimentation, and first-principles thinking.

WORK EXPERIENCE

Manager — Digital Strategy & Web Operations

2025 – Present

The Everest Holiday Pvt. Ltd.

Kathmandu, Nepal

- ▶ Manage end-to-end digital strategy, SEO, content creation, and technical infrastructure for theeverestholiday.com and thekailashholiday.com
- ▶ Execute comprehensive technical SEO audits, sitemap optimization, schema markup, and Google Search Console management (43.1K impressions, 476 indexed pages)
- ▶ Produce 80+ SEO-optimized blog posts covering trekking logistics, gear requirements, route planning, and cost analysis
- ▶ Build and maintain 37 interactive Google My Maps route maps for trekking packages across Nepal
- ▶ Oversee 57 travel packages (49 complete, 8 in development) spanning Everest, Annapurna, Langtang, Manaslu, and Kanchenjunga regions
- ▶ Produce visual content end-to-end: heavy photo editing for package galleries and marketing assets, plus light video editing for promotional reels and itinerary clips
- ▶ Deploy AI automation agents (Agent Pi) for content writing, SEO auditing, and WhatsApp customer engagement

Web Operations / Digital Marketing

6 Months

Love Coupons (Love Savings Group)

Bangla Mukhi, Nepal

- ▶ Contributed to digital marketing operations for lovecoupons.com.my, a performance marketing platform operating across multiple global regions
- ▶ Worked on coupon code management, content updates, and promotional campaign support for affiliate marketing workflows
- ▶ Gained foundational experience in SEO, affiliate marketing models, and large-scale content management systems

FREELANCE & CLIENT PROJECTS

Full-Stack Developer — Nagarjun Learning Center

Completed

Custom WordPress CMS • naqarjunlearningcenter.org

- ▶ Built a complete custom WordPress CMS admin panel from scratch with a custom plugin (nlc-fulladmin.php)
- ▶ Developed 6 Custom Post Types, 15+ AJAX endpoints, and full CRUD for Programs, Projects, Team, Blog, Volunteers, Donations, and Activities
- ▶ Created a custom WordPress theme with all pages connected to the admin panel via `theme_mods`; deployed on Hostinger with LiteSpeed caching

Frontend Developer — Piyush Maharjan Photography

Live

Portfolio site • piyushmaharjan.com.np

- ▶ Designed and built a portfolio website using pure HTML/CSS/JS with a matte black + gold accent design system
- ▶ Implemented Formsprees contact form integration; deployed on Netlify under piyushmaharjan.com.np

KEY PROJECTS

God Simulator — Godot 4.4.1, GDScript, LLM Integration

- AI-driven god game with spherical planet (20K unit radius), 100 LLM-driven NPCs with behavior trees, 8 god powers, procedural audio/textures, and dynamic day/night and weather systems. Phase 6 of 10 complete.

OpenClaw AI Gateway — Node.js, Multi-LLM

- Self-hosted AI gateway integrating multiple LLM models (Gemini 3, Kimi K2.5) with voice-enabled agents, TTS, and subagent architecture for automated content and SEO workflows.

Green Hydrogen Think Tank — Policy & Strategy

- Serve as the team's lead communicator and project strategist for Nepal's National Green Hydrogen Think Tank initiative — representing the group in stakeholder engagement and drafting proposals and policy frameworks for the Ministry of Energy, Water Resources and Irrigation.

TECHNICAL SKILLS

Frontend: Next.js, React, HTML/CSS/JS, Tailwind CSS

Backend: Laravel (PHP), Node.js, WordPress (custom themes + plugins)

Game Dev: Godot 4.4.1, GDScript, LLM-driven NPC systems, procedural generation

SEO: Google Search Console, technical auditing, schema markup, sitemap management, content strategy

Hardware: Smartphone repair, soldering, electronics salvage, PC hardware configuration

DevOps: Git/GitHub, PM2, Playwright, Vercel, Netlify, GreenGeeks, Hostinger

Exploring: Flutter, Firebase, Google Maps API, mobile app architecture

WEBSITES BUILT & MANAGED

- theeverestholiday.com — Trekking company flagship site (Next.js + Laravel); full digital ops, SEO, and content
- thekailashholiday.com — Pilgrimage & holiday brand site; platform architecture, SEO, and content management
- piyushmaharjan.com.np — Photography portfolio (HTML/CSS/JS, Netlify); design and build from scratch
- nagarjunlearningcenter.org — Custom WordPress CMS + theme with full admin panel and CRUD modules

ABOUT

ENTP — pattern-spotter and debater who understands how the majority thinks, then builds differently. Dyslexic, self-taught across every domain listed here. Learns by building. Prefers direct criticism over polite agreement. Driven by curiosity, persistence, and first-principles reasoning.
