The Global Summit www.theglobalsummit.org– Co- Chair

- A complimentary global citizen driven policy system incorporating and responding to the people on the front lines of the planet’s most pressing issues.
- Deliver a universal framework for collaboration in sustainable development – and thus achieve [Millennium Development Goal \(MDG\)#8](#) – Build a global partnership for development.
- Catalyze sustainable environmental and economic solutions via the dissemination & transfer of sustainable technology in energy, communications, transportation, agriculture, health, water, waste, housing & education.
- Beyond its series of events, The Global Summit™ impact is advanced by an emerging network of Partners In Empowerment (PIE), local partner Summits, and online education and support community: IPIE.org
- Uniting people hands-on, and online in shaping solutions to the issues that most affect them, The Global Summit advances a whole system approach to social, economic and environmental change.
- Through The Global Summit, each participant meets their specific, individual goals within the broader context of creating a more sustainable future for Humanity.
